Dana Pharma Company for Medicines, Medical Supplies and Equipment Ltd.

DanaFarma 2012
Company History

DANAFARMA Company has been working in this field since 2000, DANAPHARMA is a company registered in the Ministry Of Health, Chamber Of Commerce and KMCACenter (Kurdistan Medical Control Agency) under License Number (64883-02) issued on (23/06/2008), and it is represented in the middle and southern of Iraq under the name of “Al-Shafaq Scientific bureau”.

Our Goals

The main purpose of our company is to actively contribute to the safe and high-level health service operation through providing high-level medicines products, medical devices and lab agents in our country. We intend to maintain our position achieved through the past years and wish to be an important and reliable participant of the market in the long run.

Services Overview

DANAFARMA is pleased to offer any kind of service in many different fields of laboratories, medical, and pharmaceutical for its customers, suppliers and international partners wishing to carry out business activities in Iraq.
Marketing and representation services

Through its well established network of relations and its experience in Iraq, **DANAFARMA** is the ideal partner for an efficient penetration of the Iraqi market. The marketing services organization provides principals with an extensive range of expertise ensuring the implementation of dedicated marketing and sales strategies.

Executing projects

**DANAFARMA** gathers the tenders and requests from the market and organizes the bidding with its partners and suppliers. **DANAFARMA** is able to offer a very rich scale of products. **DANAFARMA** leads negotiations of prices and follows up the offer bidding, to award to contract to supply, and finally to after sales services.

Product Management

**DANAFARMA** can offer product management to the manufacturer. Our product management includes a wide range of management activities, ranging from the time that there is a new idea for a product to eventually providing ongoing support by means of sales and distribution. Within our distribution network we are able to launch and promote products on your behalf in the Iraqi markets without the hassle of distribution costs and storage charges. Our managed products consist of drugs, lab reagent, medical equipment, surgical products and OTC (over the counter), existing and new innovations. Our module provides a wide overview of considerations in developing and managing a product. How a product is developed or managed depends very much on the nature of the organization and its foresight, creating a demand could be the solution for the manufacturer. We are interested in hearing from companies that are seeking to rationalize their portfolio and are looking to outsource their sales and distribution for Iraqi market.

DESMA PHARMA Group: www.desmapharma.com

DESMA PHARMA Group culminates the vision of establishing a profitable business through the acquisition of manufacturing, sales and distribution rights to branded, off-patent, pharmaceutical products from major pharmaceutical companies. Most of these products have become non-core business to their originator’s portfolio or too small for big pharma companies. Intense merger and acquisition activity often leaves fragmented portfolios which big pharma rationalizes.

Labatec Pharma: www.labatecpharma.com

Labatec Pharma is a Swiss pharmaceuticals company based in Geneva, Switzerland, backed by more than 50 years experience in producing high-quality products. Labatecs breadth of orals and injectable products, help patients worldwide improve their quality of life every day. We aim to provide very high Swiss quality products.

Jordanian Pharmaceutical Manufacturing Co. PLC: www.jpm.com.jo

JPM is one of the leading developers, manufacturers and distributors of generic pharmaceuticals in the region and has been in business for over 27 years. Today we offer over 100 prescriptions and OTC products in a wide range of formulation and dosage strengths. We aim to continue our significant business growth, which we maintained over the past years.
Medical Devices Companies

Laboratorios KIN: www.kin.es

Laboratorios KIN was founded in 1964 with the purpose of researching and developing oral care products aimed at oral healthcare professionals and consumers. A clear innovative and vanguard talent, our consistent collaboration with the most prestigious universities, and our significant and managerial efforts, have created a favorable environment for our company. Today, our products deserve the interest and confidence of both the medical-pharmaceutical professionals and patients.
